

Date: 30th May 2025

Dear Owners, Residents and Tenants,

**NOTICE ON TEMPORARY FOOTPATH CLOSURE TO FACILITATE WIDENING WORKS
ALONG KALLANG RIVER, BEHIND MAR THOMA ROAD AND JALAN TAMAN**

1. The Urban Redevelopment Authority (URA) has appointed us, Samwoh Corporation Pte Ltd as the main contractor to build a 1.2km-long pedestrian cum cycling link across the Pan Island Expressway (PIE), connecting the Kallang Park Connector between St Andrew's Junior College and the neighbourhood park at Jalan Taman. When the PIE Link is completed, users along the Kallang River will enjoy a seamless green commute between Bishan and the city, and will contribute to a more sustainable, car-lite and healthier city.
2. You may have seen works in progress around the Kallang River. We are progressing with the next phase of the work i.e. widening the existing footpath along Kallang River, behind Mar Thoma Road and Jalan Taman. To construct and widen the footpath, a few trees will be removed. These will be replaced with new trees and landscaping so that the area remains green and welcoming.
3. To carry out the work, the current footpath along the Kallang River, from Mar Thoma Road to the pedestrian bridge to Moonstone Estate, will be closed from 15th June 2025 until the project's completion in the second half of 2027. To help pedestrians to navigate around the work site, we will be installing directional signs around the estate. Please refer to **Annex A**.
4. During the construction period, there may inevitably be some noise and dust. Rest assured that we will take appropriate measures to minimise any inconvenience to residents. For further information, please contact the following Project Officers from our office: -

Mr Ker Han Yi, Project Manager	Hp: 9754 9114	Email: hanyi.ker@samwoh.com.sg
Ms Katherine Lau, Senior Public Relations Officer	Hp: 9815 4386	Email: katherine.lau@samwoh.com.sg
Mr Wong Kia Fu Senior Civil Engineer		Email: ura_pie_link@ura.gov.sg

5. Thank you for your understanding and support as we work to enhance our community's infrastructure.

Yours faithfully,

Ker Han Yi
Project Manager
Samwoh Corporation Pte Ltd
